- Confluence

Education

🕒 HBO-ICT

The Hague University of Applied Sciences,
Game development
sep'2020 - present

Profile

Since end 2023 I've worked hard to enter the game industry by working and studying in their various disciplines with a focus on design and programming. While also attending various events (Indigo, DGA network lunch etc.).

Implying that I'm passionate about the industry would be an underestimation.

Experience

🕒 Game Designer | sep'2025 - feb'2026

Worked as an intern for PWXR where i performed cycles of prototyping for an unannounced mobile multiplayer game. I mostly iterated on gameplay and perform tests with multiplayer and performance.

🕒 Lab assistant | sep'2024 - feb'2025

Student job at the Gamelab at THUAS. Maintained a study choice unreal project that gets showcased on open day's and also took care of their game room by performing maintenance and preparing it for guests.

🕒 Unity Developer | feb'2024 - jul' 2024

Internship at the Gamelab which is part of The Hague University of Applied Sciences (THUAS). Worked on a 3D digital twin of a innovation project called InnovA58. Contributed to various tasks from visuals to optimization.
